# Racing Peripherals

## V3™ Racing Wheel▶

Available for Nintendo®64,  
PlayStation™, & Windows® 95/98.  
Do you feel the need for speed?  
The thrill of the wind racing through  
your hair? The heart-pounding,  
white-knuckle feel of driving like a  
New York City cab driver?  
Incredible control and incredible  
realism come packed in every  
wheel. The PlayStation™ version of  
the V3 Racing Wheel is officially  
licensed by Sony®.

## ▶ UltraRacer™

Available for Nintendo®64, PlayStation™,  
& Windows® 95/98.

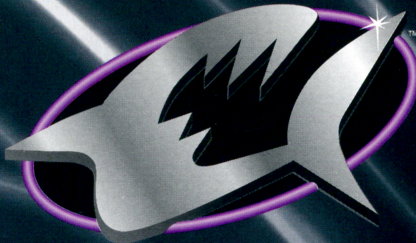

Picture a device with all the control of a steering wheel,  
yet it's hand-held. Rather than conjuring up that image,  
check out the picture of the UltraRacer. Analog throttle  
control trigger and analog steering will set you on your  
way to victory lane. More Control, Less Controller.

# New For Windows® 95/98

## GAME SHARK™ G A M E E N H A N C E R

### GameShark™

Available for Nintendo®64, PlayStation™, Sega Saturn, Gameboy/Gameboy Pocket for Windows® 95/98

When we say ABUSE THE POWER, we aren't even scratching the surface of what the GameShark allows you to do. Hidden levels, characters and powers easily become "found" levels, characters and powers. Pre-programmed codes allow you to unleash the fury instantly and easily. Future codes are simply added through the menu driven controls. We are always adding tons of codes to our website, [www.gameshark.com](http://www.gameshark.com).

# INTERACT<sup>®</sup>

## Products

### ◀ Barracuda<sup>™</sup>

*Available for PlayStation<sup>™</sup>.*

Sink your teeth into every game with the Dual Analog controller from InterAct<sup>®</sup>. Lots of buttons and lots of features. This pad even has full programmability like the ProgramPad<sup>™</sup>! The funky cool boomerang shape puts all of the buttons right at your fingertips.

### ◀ SharkPad Pro 64<sup>2</sup><sup>™</sup>

*Available for Nintendo<sup>®</sup>64.*

We took the original SharkPad<sup>™</sup> and minimized the appendages, but we kept the auto-fire and groovy clear skin. Comfortable design allows for easier handling which makes the SharkPad Pro 64<sup>2</sup><sup>™</sup> the N64<sup>®</sup> controller to have. Officially licenced by Nintendo<sup>®</sup>.

## ◀ ProgramPad™

*Available for PlayStation™ & Windows® 95/98.*

Rather than fumbling over multiple button combination moves, let the ProgramPad do it for you. Tell the pad what to do, it does what you say with the touch of a button. The PlayStation® version of the ProgramPad™ is officially licensed by Sony®

## ◀ PiranhaPad™

*Available for PlayStation™ & Windows® 95/98.*

Whether traveling with a group of your friends or on your own for one player action, this pad runs things. The raised, circular direction pad is a wonderful luxury. This hard to put down pad is the pinnacle of PlayStation™ and PC perfection! The PlayStation™ version of the PiranhaPad™ is officially licensed by Sony®

## ◀ MakoPad

*Available for Nintendo®64 & Windows® 95/98*

Don't move your hand! Really. The MakoPad is designed so instead of moving your hand, you can switch from analog to digital control with the slide of your thumb. Less fumbling and bumbling. More control. Deadly accuracy. Potent firepower. The Nintendo®64 version of the MakoPad is officially licensed by Nintendo®

# fx™ Racing Wheel

Available for Windows® 95/98

This is it! The only force-feedback, hand-held steering controller in existence. While you react to the road, so does the fx Racing Wheel. The Game Device Profiler lets you customize button layout, record keystrokes, and even assign force effects for games that don't support force feedback. You will be rocking and rollin' with the game in no time with the fx Racing Wheel.

V4 FORCE FEEDBACK RACING WHEEL

## V4™ Racing Wheel

Available for Windows® 95/98

There is nothing virtual about this racing wheel. With 11-style shifters, rugged "heel to toe pedals" and the driver's license to take this baby for a spin. Pull in the Profiler, letting you assign functions, keystrokes, and force feedback racing game in Windows® 95/98!

# PRODUCTS

## DexDrive™

Available for PlayStation™ and  
Amiga 64

Easily connecting the DexDrive to  
your PC, you have the most immense  
control card available anywhere...your  
PC. If you're the generous type,  
e-mail your game triumphs and  
share them or post them on the Internet. If  
you're the greedy type (which is good  
because you can load up on everyone's  
achievements for your own  
satisfaction). Give, receive, advance,  
and more! Get it!

With a softcore rubber lining on the wheel, Formula  
10" diameter racing design, you'll need your  
own garage and check out the Game Device  
for force effects to the V4's buttons. Perfect for any

## Barracuda™ 2

Available for PlayStation™.

The Barracuda™ was pretty vicious, this one is just  
right voracious. We added Dual Vibration to this Dual  
controller and came up with something amazing.  
Run the program this monster and kick in the additional  
Analog feature to enjoy utilizing the thumb-sticks  
in any type of game. Remember, if it shakes more than  
you're playing with it!

## ProPad™ 6

Available for Windows® 95/98

If you're a PC gamer, and you like  
to sit back in your chair, this is your  
controller. Easy to use, incredible  
control and comfortable design are  
the rewards for plugging in this slick  
game pad. Exactly what you need  
for action, fighting and sports  
games.

## RaiderPro™

Available for Windows®  
95/98.

A joystick is a joystick,  
except when it's the  
Performance RaiderPro.  
Once you've experienced  
the level of control this  
stick gives you, you'll  
never accept anything  
else.

# Colors

**PERFORMANCE™**

## SuperPad™ 64 Colors

Available for Nintendo®64.

Whoa... the colors. This perfectly shaped N64® controller comes in five vibrant colors. This way, you can choose the color that suits your personality. If you want to play multiplayer games, you're gonna need some extra gamepads. Officially licensed by Nintendo®.

## GamePad™ Colors

Available for PlayStation™... And all the colors from the rainbow trickled down into these magical PlayStation™ gamepads. This pad just feels and controls better with its raised, circular direction pad and comfortable shape.

**PERFORMANCE™**

Remember, the PlayStation™ only comes with one controller, so grab a GamePad and call a friend.

# Memory Cards/ TremorPaks™

## Memory Cards

Available for Nintendo®64 and PlayStation™

If you want to succeed in this world, you'll need to save your progress to a Performance Memory Card. We have everything from standard cards to the most massive storage devices you can imagine.

## TremorPaks™

Available for Nintendo®64

Touch is the latest sense to be stimulated during gameplay. Feel the impact of everything that happens in the game. The TremorPak Plus allows you to plug in a memory card and TremorPak at the same time... without "hot-swapping". We will even throw in a memory card when you buy it.

PERFORMANCE™

# Game Boy Pocket

PERFORMANCE

## PowerPak™

Haven't enough batteries perished at the hands of gamers? Snap the PowerPak into the back of your Game Boy Pocket®, play for eight hours, recharge while you play and never buy batteries again... well, at least for your Game Boy Pocket®.

## Pocket Protector™

No, this isn't a leftover prop from those nerd movies, it's the super-hip way to keep your Game Boy Pocket® safe. If you're a klutz, it's ok, the Pocket Protector™ will cushion those bumps and drops, keeping the edges and lens safe. We've thrown in a carrying strap too.

## PulsePak™

Feel those good vibrations... on your Game Boy Pocket®! This is the first and only rumbling, vibrating, tremoring and shaking device available for the Game Boy Pocket®! You see, we are geniuses. Programmable sound effects further enhance gameplay.

## HandyPak 2™

This is like a home theater system for your Game Boy Pocket®! Bigger sound, bigger screen, bigger buttons, and a easy-to-control thumb stick. We put some lights in, too, this way you can actually play in the dark. All these big features, but your Game Boy Pocket® is still quite small and portable.

# Their Little Fingers Get Into Everything...

## But Not Safety Sockets!

Safety Sockets surge protectors are your first and best line of defense against the ever-present danger of accidental electric shock. Safety Sockets' built-in, spring-loaded covers are wonderfully safe and effective, but so simple and easy to use – insert a plug partway, turn the socket to the left, and insert the plug completely. When you remove the plug, the cover snaps closed immediately. Safety Sockets

prevent paperclips, bobby pins and little fingers from going where they shouldn't. Plus, Safety Sockets surge protection shields your valuable electronics – like computers, TVs and stereos – from damage by powerful, unexpected disruptions of electricity. They are backed by an outstanding \$25,000 Connected Equipment Warranty.\* Safety Sockets: Protecting the pricey...and the priceless.

\*Recoton reserves the right to determine Fair Market Value of the connected equipment, as specified by the Orion Blue Book (used equipment value publication), or equivalent, for actual equipment model/year value.
